The Finishing Touch

HOWEVER beautiful may be the interior trim of a building, large or small, as conceived and delineated by the architect, it is materially enhanced by the application of an appropriate finish—varnish, enamel or lacquer.

That Pratt & Lambert Varnish Products are so frequently used for beautifying and preserving such surfaces is unquestioned proof of their unfailing excellence.

The prompt, personal co-operation of the members of the P. & L. Architectural Service Department, is yours for the asking.

PRATT & LAMBERT VARNISH PRODUCTS WERE USED ON THE INTERIOR OF THE ARCHITECTURAL BUILDING, UNIVERSITY OF ILLINOIS

Beauty
and
Convenience

. . . have gone hand in hand into the kitchen. And leading the way are the Mueller Combination Sink Faucets. They are the last word in modern plumbing goods. Finished in Chromium, that newest, non-corrosive, non-tarnishing plate, and of all metal construction, the Sink Combination illustrated will give maximum service as well as enhancing the beauty of the modern kitchen.

Mueller Sink Combinations are made with or without the removable soap dish. They are also supplied with a hose spray.
